HYGIENE FLOORING

wallclad.ie

Ireland's Premier Wallcladding Installers

Eugene O'Reilly Flooring

Eugene O'Reilly flooring has been installing specialist flooring and Wall Cladding in Medical, Educational and industrial sectors for 30 Years.

Our reputation and attention to detail is second to none and no job is too big or small for us, with Beaumont Hospital, Our Lady of Lourdes Hospital, Dublin City Council, and Blackrock college just a small sample of our previous and current clients. Alongside our experience we offer only the best materials to ensure a perfect finish every time.

Our partnership as BioClad's first recognised installer in the Republic of Ireland ensures that you the client get not only the best installation possible but also the best materials too.

BioClad is not only a hygienic cladding solution but also a stylish option too with a range of colours available to suit your taste or needs.

In partnership with BioCote Ltd, Advanced Hygienic Contracting have introduced BioClad®. A brand new PVC wall cladding system that incorporates BioCote® silver ion antimicrobial technology. BioClad® is a groundbreaking product that can be used in any environment where hygiene is paramount.

Advanced supply and install BioClad® and a full range of ceiling and flooring systems for the UK Healthcare, Leisure, Food and Pharmaceutical industries. This One-Stop-Shop ensures our clients have the peace of mind when specifying hygienic internal finishes that are compatible with budgets, timescales and suitability for use.

Our Services

Wall Cladding

We offer the best quality wall cladding installations in the medical, educational, retail and hospitality industries.

We offer hygienic and stylish wall cladding and as a premier installer of BioClad we also promise the best quality materials with our installations and offer a professional service second to none.

BioClad

BioClad is the world's first proven antimicrobial PVC hygienic wall cladding. Antimicrobial silver ion is impregnated into the hygienic cladding panels at the time of manufacture.

This helps stop the growth of bacteria and mould which works continuously for the lifetime of the panels, reducing levels of bacteria such as MRSA, E Coli, Legionella, Salmonella and mould (including Aspergillus Niger) by up to 99.99%.

Flooring

- Forbo Marmoleum
- Altro Safety Flooring
- Individual Design
- Floor Removal/Repair/Installation
- Digital Image Wall Cladding
